

KRAZY KAT ROW ENDS IN FIZZLE

Four Arrested for Disturbance Forfeit Colateral to Police.

The holiday audience that sat in Police Court yesterday morning was disappointed.

The second "spasm" of the "Krazy Kat," the near-Bohemian resort in Green's court northwest, did not materialize, as Jerald Ulrich, Thomas C. Allnut, George Wilkinson and Bryant E. Moreland, who were arrested Thursday night, failed to answer their names and their collateral was declared forfeited.

The first "spasm" occurred several months ago when some rude persons, who were entirely out of harmony with the artistic setting of the establishment, started trouble. Whoops, howls, disorder and several shots followed. The patrol wagon backed up and then backed out again with a load of the celebrants.

Thursday night a few representatives of the working population visited the place and attempted to rub elbows with the more artistically inclined habitués of the place and a fight followed.

This time the ambulance appeared, but the injured took their wounds home with them for solace. The "intruders" refused to stop intruding and the result was that four of the crowd were arrested on charges of disorderly conduct.

No Chickens Like This Along "Great White Way"

Brantford, Ont., May 30.—A Wyandotte chicken just hatched here in the flock of Herbert Shaw, is strutting about the place with the aid of four legs and eating heartily with the help of two beaks.

It is hoped it may give up two eggs a day instead of the customary one.

GOVERNMENT PRINTING OFFICE NEWS

Representative Royal C. Johnson addressed the Government Printing Office workers at the Memorial Day exercises. Mr. Johnson has only recently been discharged from the army, and his appearance was the occasion of an ovation.

He expressed his pleasure at appearing before a body of government workers who really produced something, and after reviewing the events leading to the establishment of Memorial Day concluded his remarks with the promise that before many years residents of Washington will have a ballot and representation in the Capitol through which to express their desires.

Public Printer Ford presided, and he took advantage of the opportunity to voice his appreciation for the response of the employees in the Victory Loan campaign, when the Printing Office went 50 per cent over the top.

Song leader Benjamin A. Lineback directed the musical program, and Forrest Grimes officiated at the piano. Mrs. Kline very beautifully rendered "Tenting On the Old Camp Ground."

The hall was beautifully decorated with flags and palms, the latter loaned by Gude Brothers.

E. Jacob Dwight, recently returned to the proffroom from a ten-day trip to Atlantic City, reports that he rescued two young ladies from Pittsburgh, who had been caught in a heavy surf.

When a young man Mr. Dwight swam the Connecticut River from Springfield, Mass., to Hartford, Conn., a feat seldom equalled.

A letter just received by "Dusty" Miller from Cincinnati states that printers in that city have secured

an increase of \$15 a week, making their scale now \$42 and \$45. What's the fare to Cincy?

Must have been quite a joke that made the Public Printer laugh so heartily just before his opening remarks.

Jim Sirious and Kirk Harrison are getting quite chummy. Jim has a car and of course will not throw a friend out, so Kirkie gets a ride.

Norman K. Berry, the genial clerk in the office of the purchasing agent, has received a promotion.

Cornelius P. Judge is now bookbinder in charge on the intermediate pamphlet bindery force.

Charlie Ruhl expects to be awarded an "all" cross for his excellent autolug in Alexandria last week. Charlie has a continuous round of blow-outs, regardless of where he happens to be.

Wilfred E. Garlick and Ernest A. Hurdle were absent from the hand section several days on military duty.

Miss Alice Draney, in the office of the purchasing agent, has accepted a promotion.

The day rollers complain that the night men are welcome to the extra money, but they say it is unfair to hypothecate tools, towels, and everything, leaving the day men nothing but work.

Louis Forsythe, paper ruler, thinks a great deal of a certain soda fountain in Norfolk. Lou says with a few more "specks" he'll be able to migrate and sling sodas instead of ink.

Makerup Elmer E. Schott, of the hand section, is spending leave in Lebanon, Pa.

James L. Cowgill has been rewarded with a promotion in the office of the purchasing agent.

John B. Fitzpatrick is assistant foreman in the intermediate pamphlet bindery force.

Pre-Historic Giant Unearthed. Seymour, Texas, May 30.—Oil drillers claim to have found bones of a pre-historic giant, ten feet high.

BUREAU OF ENGRAVING AND PRINTING NEWS

Here's where the stamp perforating division is doing some more good work. Mrs. Mabel Rasky, assisted by some of the members of the girls' union, are running a bazaar, the proceeds of which will go to the Salvation Army. To date they have collected something over \$5.

Miss Sarah A. Sweeney, of the trimming room of the examining division, has resigned to accept a position in the subtreasury in New York, where her sister, Elsie Sweeney, is now employed.

Miss Lottie McInnes, of the examining division, has been granted twenty days leave.

Cupid is busy again in the wetting division, night force. Two more weddings coming next morning, maybe three. Just watch this column.

Talk about your candy kids. Mr. Sims, of the machine shop, so they say, is studying the art from a scientific standpoint. In fact, he is planning to go into the candy making business. His many friends in the shop are wishing him all kinds of good luck, and say that a good-sized sample would be convincing evidence.

Miss Helmuth, of the stamp book and coil division, is on a week's leave.

Fred Meyers, of the engraving division, has just purchased a new machine, and it is some car, too.

Some of the employees of the bindery division the other day contributed largely to the comfort of the boys at Walter Reed Hospital. They sent doughnuts, cigars, fruits and magazines, and to say that the gifts were appreciated is putting it mildly.

Joe Lennon, of the engraving division, is spending a week-end at his home in Philadelphia.

Sixty-seven junior power press printers have been ordered to report for night work Monday, on account of the shutting down of about eighty power presses.

Elton Pillow, painter, will spend a few days visiting relatives at Ocean View, Va. Mrs. Pillow is there for the summer.

Miss Phillips, of the stamp book and coil division, is on leave.

The Bureau Band held its regular rehearsal Thursday evening, with mostly trombones on hand.

Clinton M. Hisle, of the engraving division, will "River" down in Virginia to visit relatives for the week-end.

Mrs. May Branzille, of the wetting division, was overjoyed to greet her brother, who was a member of the 312th.

Orville Butler, of the engraving division, was absent yesterday. Mr. Butler is a member of the District National Guard, and escorted the 312th home Thursday from Camp Meade.

Maurice Sherman, of the bindery division, left Thursday for an extended trip to New York City to visit his son, Jacques Sherman, and family.

MEMBERS OF CONGRESS MAROONED IN SERBIA

There are two members of the House of Representatives who are not yet aware that President Wilson has called Congress together in special session.

Representatives M. Clyde Kelly, of Pennsylvania, and W. Frank J. Hall, of Michigan, were in the interior of war-devastated Serbia at last accounts, innocently ignorant of the fact that the Congressional mill is grinding legislative grit merrily at the call of the President. Mrs. Kelly, wife of the Pennsylvania Statesman, received a letter from her husband yesterday. It is dated at Belgrade, Serbia, and Mr. Kelly explained that all bridges were down and the place terribly damaged by Austrians and Bulgars when they occupied it.

"I am sending this letter to France by courier," he explained. "From whence it will be mailed to you. There are absolutely no postal facilities in this ruined country."

So, being in what may be termed a wilderness of war's devastation, Messrs. Kelly and James are in blissful ignorance of happenings on this side of the big pond, including the present important session of the House and Senate. All mail for them, sent by their direction to Paris from their families and their secretaries at the Capitol, was returned by the French postal authorities in bulk yesterday, including notification that Congress would meet in special session.

Army Station Burned; No Casualties Given

Paris, May 30.—Dispatches received from Coblenz today reported that the Third Army regulating station at Metternich was burned, but no mention was made of any ammunition dump explosion or of any missing men. Army authorities here also denied knowledge of reports that eighty men were missing after an explosion in the occupied area.

An Exchange Telegraph dispatch received in London from Cologne yesterday reported eighty men missing in an explosion.

MILLIONS ARRIVE IN LOCUST ARMY

Invasion of District and Surrounding Territory by Destructive Tree Pests.

Countless millions of locusts, deadly to tree life, are now invading the wooded districts of Maryland and the outskirts of the District.

Bulletins issued several months ago by the Department of Agriculture prepared the farmer in a way for this invasion.

No remedy, however, so far has been offered by horticultural experts or authorities on insect life to destroy this pest.

Similar clouds of the winged ene-

mies are now infesting the Southern States of North Carolina, South Carolina and Virginia. They have also been found in Kentucky, Ohio, Pennsylvania and Delaware.

While extremely dangerous to the tree life in these States, it is not believed that they will devour all vegetation.

Three Types Recorded. Among them, the ten-year, the thirteen-year and seventeen-year varieties. Several characteristics peculiar to this year's species have been noted, that Biblical students say have been foretold in the sacred writings following a prophesied "swarm of locusts."

Instead of blue-green eyes, those of the pests this year are blood-red. Their wings, too, are built stronger than in former years with special guard at the outer edges.

Particularly noticeable is the clearly defined letter "w" found in each corner of the wings. Such peculiar traits are causing much commotion among scientists and laymen.

As far as could be authentically

learned, this is the first visit the insects have made in this portion of the country, although they have been known to appear in different corners of the globe since the days of Pharaoh.

DR. F. P. KEPPEL QUILTS WAR DEPARTMENT POST

Dr. Frederick P. Keppel, Third Assistant Secretary of War, yesterday announced his resignation, effective June 30. Dr. Keppel, who entered the department at the outbreak of the war to assist Secretary Baker, will become director of foreign operations for the American Red Cross.

Before he entered the War Department, Dr. Keppel was dean of Columbia University, New York.

Sphinx Honor Society Lists Qualifications

The Sphinx Honor Society, one of the most exclusive organizations at George Washington University, has

announced its new qualifications for membership.

A student must have a scholarship average of 85 per cent or over and must have taken a leading part in one major and two minor classes of student activity.

The major activities are basketball, tennis, debating, work on the school paper, and work in the Women's University Club.

WOMEN WORKERS

In almost every line of war activities the women of this country have done well and have taken front rank for doing work that released thousands of men for service overseas.

Some women have been overambitious, and, at the expense of their health, have filled places once occupied by men. Every woman who, because of overwork, has brought on some ailment peculiar to her sex, should depend upon Lydia E. Pinkham's Vegetable Compound to restore her health and strength as this remedy is now recognized as the standard and has restored multitudes.—Adv.
